

ARRIVAL OF A STRAY CAT FOR FOOD AND SHELTER

A CAT'S HOTEL At Gordon Cottage, Hammersmith.

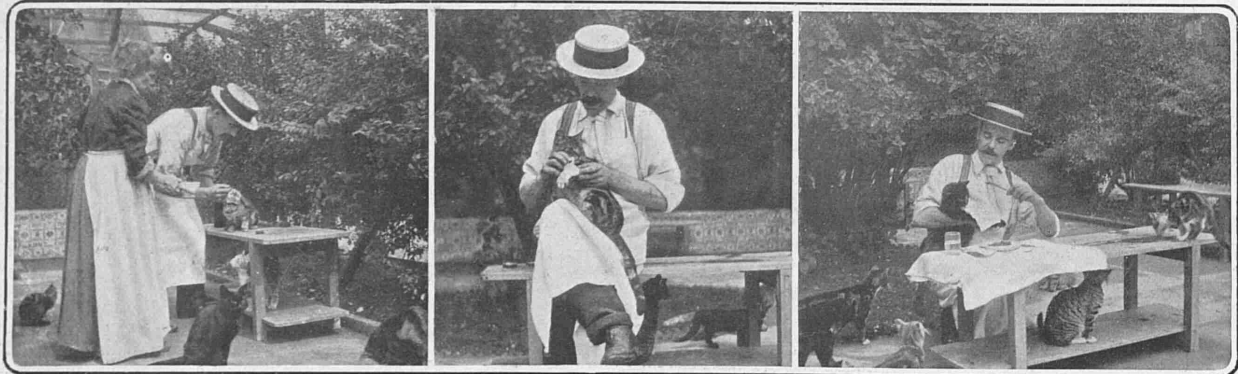

The cats' hotel is run on much the same lines as the more familiar dogs' homes. The "hotel" is really a boarding-house and hospital combined, the cats being divided into two classes—boarders and patients. At present there are more than one hundred animals in the hotel, which is largely patronised by owners of cats when they go away from home and wish their pets to be well looked after. The proprietor of the hotel is Mr. Gordon, who has made a special study of cats and their ailments. These photographs are the copyright of the Topical Press Agency
